

2024 Art Submission Rules:

(Changes or Corrections in RED.)

Traditional Art Entries:

The entry divisions for traditional art forms are as follows:

- 1) **Primary Art** - Grades 1-3
- 2) **Elementary Art - Grades 4-5**
- 3) **Middle School Art - Grades 6-8**
- 4) **High School Art** - Grades 9-12

General Rules that cover all traditional art:

- 1) **The art must be original to the student.** Do not copy someone else's work. We are aware that copying the masters is somewhat a category in itself and has value for instructional purposes, but we are not considering that category. **An artist statement must be signed** along with the entry, stating among other things that the artwork is original to the student.
- 2) **All entrants must sign an entry form.** This form, as well as an **artist statement form** will be available before the competition. It must be filled out and ready when you drop off art, so that there is sufficient time to judge the art.
- 3) **Art must have been completed within the 12 months prior to entry.**
- 4) **No art may be entered that was done under direct supervision of a teacher or parent.** The student may use help such as reference books and so on, but is not allowed to request direct suggestions from others in how to change their art for improvement for the sake of this competition. The student needs to rely on what they have learned to put forth their best effort for the competition.
Exception: Elementary students may have parent or teacher guidance and suggestions, but the supervisor should in no way touch the student's art work.
- 5) **Photo reference is allowed.** Be aware that cameras lie, due to lens distortion and other limitations, so just because a student uses a photograph does not mean they will have an unfair advantage. In fact, the student should be aware that following a photograph too closely could handicap their entry if the photograph suffers from much lens distortion.
- 6) **All traditional art must be framed.** This is part of the presentation of traditional art. It may be matted within the frame if so desired.
- 7) If a parent or teacher deems the student sufficiently advanced, **students may compete in a level higher than the grade division describes.** However, be aware that this is likely to make the competition for that student significantly more difficult.

8) **The following art may be realistic/representational, or abstract.** If enough of each is entered, we may divide categories into Abstract/Non-abstract division and award accordingly.

9) **Entries are limited to two-dimensional art only.**

10) **There is no limit to the number of entries a student may submit in any one category, provided that all the work has been completed within the calendar year of March 2023-March 2024.**
